

Lab Technician for the Embryo Lab

Are you interested in and motivated for a Career in IVF Bovine Embryology?

We are looking for a Lab Technician with passion for learning to work with oocyte searching, grading, and quality assessment. As a detail-oriented individual with strong organizational and communication skills who thrives in a dynamic team environment you might be the one we are looking for.

The position is designed for working with hands-on and real-world experience in reproductive technologies

Your main tasks will be:

- Oocyte searching and grading for maturation.
- Conduct oocyte quality assessment at collection; identify and report any anomalies detected during collections.
- Follows Standard Operating Procedures (SOPs) as determined by Viking Genetics.
- Maintains cleanliness and disinfection of all lab areas.
- Communicates openly and honestly with fellow team members and supervisor.
- Recordkeeping/Data Entry.
- Assist in Quality Control and lab cleanliness.
- Traveling on farms or slaughterhouses to other centers to provide relief help.
- Maintain good laboratory technique and follow lab protocols.
- Supply inventory management
- Other duties as assigned by supervisor.

Workplace: Assentoft by Randers, Denmark

Qualifications:

- AP Graduate in Chemical and Biotechnical Science or similar
- Minimum 1 year of experience with basic laboratory skills: pipetting, microscopy, centrifugation, etc.
- Able to work effectively in a team as well as alone
- Able to sit for long periods of time behind a microscope, in a lab setting.
- Able to work under a laminar flow hood.
- Able to perform tasks efficiently in outlined time frames

We expect you to have/be:

- Open to flexible working hours with rotational weekend and holiday work
- Excellent computer skills.
- Good hand to eye coordination.
- Strong attention to detail and organization.
- Takes initiative and is a self-starter
- Ability to communicate with team members honestly, effectively and with empathy

We offer you:

An exciting position in a professional and dedicated company. You will have an opportunity for both professional and personal development. We work with short decision processes. Finally, you will have great influence and freedom within the boundaries of the position.]
